

Pat Doering
Director of HR
The Anderson Company

Healthy Employees They're our number one goal.

Workplace Health is focused exclusively on the prevention and treatment of work-related injuries or illnesses.

Keep your employees safe, healthy and, most important, on the job. Workplace Health at Prince William Hospital offers high quality healthcare and a better value, because we're faster and less expensive than most Emergency Rooms or Urgent Care facilities. We offer drug testing and physical examinations to prevent workplace accidents, fast medical treatment for work-related injuries or illnesses, and case managers to manage case load and ensure continuity of care, including scheduling appointments and keeping employers informed.

Set up your account today.
