Mr. Michael Schwartz, CEO
Prince William Hospital
8650 Sudley Road, Suite 411
Manassas, VA 20110

Dear Community:

Prince William Hospital (PWH) is, in my opinion, the “Heart and Soul” of our expanding community. No matter who you are, at some point in your life, you, a friend or family member will need the services of the hospital. Therefore, filling this need is a great responsibility for the leadership of PWH. Throughout my 9 years on the board of PWH, I’ve seen how seriously all the leadership takes this responsibility.

Now, PWH has selected a partner, Novant, to help it grow and expand at a faster pace to meet its needs and capture its opportunities. Who is Novant? I think you will be impressed when you learn its mission, its strengths and its commitment to quality and the highest standards of service. I know I am impressed after having the opportunity to learn what it has achieved, and how its Vision, Mission and Core Values have been a driving force in its successes.

PWH will move forward with its current name, and will continue to have its own Board of Governance. It will be infused with funds to propel it forward at a much faster pace than it could do on its own.

We experience firsthand how our fast-growing, expanding community is in great need of more state-of-the-art medical services, as well as more doctors.

My recommendation for anyone who may be worried about PWH – please learn more about Novant. If you will do that, I sincerely believe your worries will be put to rest.

Sincerely,

Jana W. Yeates, CEO
